

Bachman-Wilson House | Research Guide | 2023

Selected by Kate Hodgson, Library and Archives Intern (2023)

Known as the Bachman-Wilson House, this structure is an example of Frank Lloyd Wright's classic Usonian architecture. This house was originally built for Gloria and Abraham Wilson in 1956 along the Millstone River in New Jersey. It was subsequently purchased by architect/designer team Lawrence and Sharon Tarantino in 1988 and meticulously restored. The Bachman-Wilson House contains a distinct mid-century modern design, full of sleek mahogany wood which allows the house to flow with Frank Lloyd Wright's tell-tale elongated layout, epitomizing the connection between art, architecture and nature.
